

# Get Clear, Immediate Insight into Your ThemeScape Map

Map clarity and automatic groups for top items ensure that you can easily navigate rapidly evolving patent landscapes.

## Automatic Groups for Instant Insight

- Get immediate answers with automatic groups for top assignees, countries, IPC-4 codes, publication years, and topics
- Select assignees to quickly see their patent records on the map, which identifies areas of interest

## Map Clarity Ensures Readability

- Clear, easy-to-read labels make it easy to determine the technology focus of a peak or region
- Dots that indicated record optimized for at-a-glance review of an area
- Customize label brightness and number of dots from the menu to ensure reports are easily understood

## Take Your Analysis Further

- Combine automatically created groups with Time Slices, searches, or your own custom groups
- Combine modes help analyze similarity, uniqueness, and overlap
