

Save Work and Export Data with Ease

Derwent Innovation makes it easy to save your work for later review or export your findings for further analysis or reports.

Effortlessly Export Data

- Field selection boxes make it easy to include the data you need
- Locate specific fields with a *Find* tool above the *Available Field* list
- Templates button helps you quickly make and apply custom reports
- Compress file as .ZIP stays deselected until you log out or select it again

Quickly Save Your Research

- *Existing Work Files* allows you to quickly save your research
- Five most recent work files display at the top of the menu for easy access
- Easily locate specific work files with the *Find* tool above the *Recent Work Files* lists
