

Results Dashboard: Focus Your Results

The Results Dashboard makes it easy to focus on actionable information within your results.

Review, Refine, Repeat

- Visuals show top items so you can quickly review results, select relevant bars, bubbles, etc., and click Filter Results to focus on actionable information
- Filtered results include updated visuals so you can continue to review and refine until you see exactly what you need.

Simple, Intuitive Filters

- Clean, easy-to-use visuals make it easy for novices and experts alike to extract important information
- Quickly focus your results on the biggest players and hottest regions to analyze technologies or competition
- Filtered results show records that contain any items you select, but those records must contain at least one selected item from each visual

Quickly Refocus

- Quickly reset to original results so you can refocus your refinements
