

Results Dashboard: Analyze and Report on Your Results

Expanded visuals on the Results Dashboard provide detailed views of specific fields and snapshots to take your results outside Derwent Innovation.

Go From Results To Reports

- Use  to quickly download snapshot of your focused results for use in reports and presentations
- Labels, legends, and customizable title included in snapshot to provide context for your audience
- Snapshots download in PNG format to ensure text clarity and image quality

Dive Into Details

- Details make it easy to review results and focus on the most important information
- Enlarged visuals make it easier to see relations between top items
- Labels on x-axis, bubbles, or map legend enable at-a-glance analysis
- Can select items in expanded view that you want to focus on as filters, and your selections are retained if you go back to the Dashboard view
