

Results Dashboard: Quickly Review Your Results

The Results Dashboard helps you quickly understand the story told by your patent search results with easy-to-read visuals.

Get immediate Answers

- Results Dashboard displays by default every time you run a search
- If needed, click the chart icon to close the Results Dashboard and jump to your results

Quickly Review Results

- Visuals show the top 10 or 20 items in selected fields for easy review of the patents displayed in your search results
- Use ☰ to select the visual for each field that best summarizes your results: Line, Bar, Bubble, or Map (Country Code only)
- Individual data points show details when you hover over them, or click 🔍 to see detailed view with labels on x-axis, bubbles, or map legend
- Customize Results Dashboard defaults to best meet your needs in Preferences.

See Global Distribution

- Country Code field shows colored world map to easily identify countries with heavy patent publication activity
- Get immediate insight into result sets that include all authorities or family members
- EPO and WIPO display separately to preserve member country details on map
